Completion Date
May 2016

Construction of 24 flats, Warren Close, Finchampstead

Brief Description of the Project:

The works comprised of demolition of 15 existing residential units and the design and construction of 24 new build residential units, together with associated infrastructure and drainage works for the site. The development was designed for residents aged over 50 years and to code level 3 for sustainable homes, with enhancements identified to achieve code level 4.
